*Happy Travel!*  
*Ron Wilson*  
*P.L.*

It's great to have you all here at the Lazy T Ranch,  
To learn about our place on our family tree's branch.

We're honored to have folks from the AgrAbility program here,  
As part of the National AgrAbility Regional Training Workshop this year.

AgrAbility provides a vital service to many farm families,  
Helping to deal with the challenges of disabilities.

Disabilities take many forms throughout a wide scope.  
The services you provide instill promise and hope.

Through assistive technology, as it has become clear,  
You're helping people pursue a productive farming career.

You're transforming lives for those who thought their farming chance was lost,  
And providing this service to them at no cost.

"Cultivating accessible agriculture" is a fitting theme,  
As you help families achieve their farming dream.

So we give you our thanks. There is great utility  
In the way you help people achieve their AgrAbility.
